

Available Spring 2022 Full semester and Mini-semester	Subject	Course Number	Credits	Title	Description
	AL	2101	3	Exploring Language	This course explores the nature of language and its relationship to culture. After an introductory comparison between common-sense beliefs about language and linguists' understanding of language, we will look at some ways of analyzing language structure. We will review how language changes, how it is acquired, and how it varies among speakers of the "same" language. We will then examine common attitudes to this variation in language. Finally we will take a look at sexism and racism in language.
Mini-semester 1 and Mini-semester 2	ART	1301	3	Art, Society and Culture	Art, Society, and Culture. This course is a survey of world art from prehistory to the present. It explores the relationship of art and artist to past cultures as well as the relevance of the visual arts in our time.
	BIOL	1103	3	Introductory Biology I	Introductory Biology I. Introduction to fundamental concepts in biology, with an emphasis on evolution, cell structure and function, basic chemistry of life, gene structure and function, cell division, and genetics. Application of these concepts to issues affecting society.
	BIOL	2300	3	Microbiology and Public Health	Microbiology and Public Health. Prerequisites: one year each of high school biology and chemistry recommended. An introduction to infectious disease agents of significance in individual and community health settings. The characteristics, symptoms, diagnosis, control, and treatment of infectious diseases will be considered. The course is designed primarily for students who intend to enter one of the health professions. <b>Note: Intense course geared for pre-allied health majors.</b>
	CIS	2010	3	Into to Info System	Introduction to Information Systems. This course provides an introduction to the role of information systems technology and applications in organizations and professional settings. Students explore the issues associated with developing and managing information systems resources, aligning systems with business processes, utilizing communications networks, devising and applying analytics, and securing systems and data. Course participants examine the practices of companies and identify strategies that can be deployed to gain advantage in diverse settings
	CRJU	1100	3	Intro to CJ	Introduction to Criminal Justice. This course provides an overview of the American criminal justice system. Agencies and processes involved in law enforcement and courts as well as correctional approaches will be introduced.
	Econ	2100		Global Economics	Global Economics. The increasing pace of globalization has led to greater integration among the countries of the world. This course is designed to introduce students to the operation of the world economy, with particular focus on current economic issues confronting various countries. The role of international organizations such as the World Bank and the International Monetary Fund will be introduced and there will be a focus on major policy challenges such as global income inequality, financial crisis, and environmental sustainability, the transition to a market economy, and the various degrees of economic union.
	ENGL	1101	3	English Composition I	English Composition I. A composition course designed to increase the student's ability to construct written prose of various kinds. Focuses on methods of organization, analysis, research skills, and the production of short argumentative and expository essays; readings consider issues of contemporary social and cultural concern. Passing grade is C.
Mini-semester 1 and Mini-semester 2	ENGL	1102	3	English Composition II	English Composition II. A composition course designed to develop writing skills beyond the levels of proficiency required by English 1101. Stresses critical reading and writing and incorporates a variety of more advanced research methods; readings will be drawn from a wide variety of texts. <b>Students may take this course if they have already taken English Composition I (or an equivalent course) and passed with a C or better at their home institution</b>
	ENGL	2130	3	American Literature	American Literature: Historical survey of literature from the United States, with consideration of literary genres, conventions, and modes. Issues such as periodization, canon formation, national identity, and the interrelationships between literature and other elements of culture. <b>Note: intense literature reading will be required.</b>
